

WISCONSIN CITIES, VILLAGES, TOWNSHIPS AND UNINCORPORATED PLACES LISTING

This document is provided as a resource to individuals and agencies responsible for preparing, filing and using vital records in Wisconsin. It is an alphabetical listing of cities, villages and townships and unincorporated places within the state.

Filers of vital records must use only cities, villages and townships listed in this document to record Wisconsin place of occurrence and Wisconsin residence on birth, death, marriage and divorce records. Names of unincorporated places are included in this listing to allow record filers to look up an unincorporated place and convert it to its appropriate township name.

Record filers should also use this list to confirm the consistency of the information entered (e.g., the reported place is located in the listed county and with the correct city, village or township status).

This listing differs from the Department of Administration List of Municipalities and Wisconsin Geographic Codes documents (see the [Department of Administration](#) web page, Demographics Services Center, Wisconsin Geography, Maps and Graphics). Those listings do not contain the names of unincorporated places. They do include geographic codes used by the Departments of Administration, Transportation, and Revenue.

This listing was compiled with the assistance of the Wisconsin Registers of Deeds Association. For further information about this list, contact: DHSVitalRecords@wisconsin.gov.
